

## Maths – Year 3 Termly Overview

### Autumn

#### Place Value

- Count from 0 in multiples of 4, 8, 50 and 100; find 10/100 more or less than a given number.
- Identify, represent and estimate numbers using different representations.
- Read and write numbers up to 1,000 in numerals and in words.
- Recognise the place value of each digit in a three-digit number (Hundreds/Tens/Ones).
- Compare and order numbers up to 1,000.
- Solve number and practical problems involving these ideas.

#### Addition and Subtraction

- Estimate the answer to a calculation and use inverse operations to check answers.
- Add and subtract numbers mentally, including:
  - Three-digit number and ones.
  - Three digit number and tens.
  - Three-digit number and hundreds.
- Add and subtract numbers with up to three digits, using the formal written methods of columnar addition and subtraction.
- Solve problems, including missing number problems, using number facts, place value, and more complex addition and subtraction.

#### Multiplication and Division

- Recall and use multiplication and division facts for the 3, 4 and 8 multiplication tables.
- Write and calculate mathematical statements for multiplication and division using the multiplication tables that they know, including for two-digit numbers times one-digit numbers, using mental and progressing to formal written methods.

## Maths – Year 3 Termly Overview

### Spring

#### Multiplication and Division

- Write and calculate mathematical statements for multiplication and division using the multiplication tables that they know, including for two-digit numbers times one-digit numbers, using mental and progressing to formal written methods.
- Solve problems, including missing number problems, involving multiplication and division, including positive integer scaling and correspondence problems in which  $n$  objects are connected to  $m$  objects.

#### Statistics

- Interpret and present data using bar charts, pictograms and tables.
- Solve one-step and two-step questions (for example, 'How many more?' and 'How many fewer?') using information presented in scaled bar charts, pictograms and tables.

#### Length and Perimeter

- Measure the perimeter of simple 2-D shapes.

#### Money

- Add and subtract amounts of money to give change, using both £ and p in practical contexts.

#### Fractions

- Count up and down in tenths; recognise that tenths arise from dividing an object into 10 equal parts and in dividing one-digit numbers of quantities by 10.
- Recognise, find and write fractions of a discrete set of objects: unit fractions and non-unit fractions with small denominators.
- Recognise and use fractions as numbers: unit fractions and non-unit fractions with small denominators.

## Maths – Year 3 Termly Overview

### Summer

#### Fractions

- Recognise and show, using diagrams, equivalent fractions with small denominators.
- Compare and order unit fractions, and fractions with the same denominators.
- Add and subtract fractions with the same denominator within one whole ( $5/7 + 1/7 = 6/7$ ).
- Solve problems that involve all of the above.

#### Time

- Tell and write the time from an analogue clock, including using Roman numerals from I to XII, and 12-hour and 24-hour clocks.
- Estimate and read time with increasing accuracy to the nearest minute; record and compare time in terms of seconds, minutes and hours; use vocabulary such as o'clock, a.m./p.m., morning, afternoon, noon and midnight.
- Know the number of seconds in a minute and the number of days in each month, year and leap year.
- Compare durations of events (for example to calculate the time taken by particular events or tasks).

#### Properties of Shape

- Draw 2-D shapes.
- Make 3-D shapes using modelling materials; recognise 3-D shapes in different orientations and describe them.
- Recognise angles as a property of shape or a description of a turn.
- Identify right angles, recognise that two right angles make a half-turn, three make three-quarters of a turn and four make a complete turn; identify whether angles are greater than or less than a right angle.
- Identify horizontal and vertical lines and pairs of perpendicular and parallel lines.

#### Mass and Capacity

- Measure, compare, add and subtract: lengths (m/cm/mm); mass (kg/g); volume/capacity (l/ml).
